BRAKE FLUID SPORT.EVO 500++

We are glad to introduce the new Brembo Brake Fluid SPORT.EVO 500++.

Brembo SPORT.EVO 500++ is a premium specification Motor Vehicle Brake and Clutch Fluid which conforms to and exceeds the current international specifications U.S. FMVSS No.116 DOT 3 and DOT 4, SAE J1703, SAE J1704 and ISO 4925.

Typical dry boiling point: 271 Deg C.

Typical wet boiling point: 169 Deg C.

Brembo SPORT.EVO 500++ will mix safely with other DOT 3, DOT 4 and DOT 5.1 brake and clutch fluids conforming to the above specifications.

Whilst SPORT.EVO 500++ is suitable for use in the hydraulic brake and clutch systems of all cars, commercial vehicles and motorcycles for which a non-petroleum based fluid is specified, it has been specially formulated to meet the performance requirements of the enthusiasts upgrading their brake system with High Performance Kits.

Brembo SPORT.EVO 500++ is well suited to vehicles with ABS braking systems. For maximum safety and performance Brembo recommends that brake fluid is changed every year.

Not suitable for vehicles with mineral Oil Systems (i.e. certain Citroen models). If in doubt consult vehicle handbook.

GENERAL INFORMATION

- Bottle 500 ml
- 20 bottles per carton
- Part Number of the single bottle: 04.8164.12
